Guruamba Maternity and Vani Vilas Child Welfare centre allgrant

from the year 1934-35, to the Gurumba Maternity and Child Welfare Trust, expired on 1.7.1937. (Vide G.O. No. 757-8 dated 28th November 1933). The private secy to H.H. has stated that through a most unfortunate oversight the Secy Office have failed to ask for a renewal of the grant till now.

(3) The annual grant of Rs 1000 for the Sri Vani Vilas Maternity and child welfare centre at Bellary, which was continued for a further period of three years from the year 1935-36 expires on the 1st July 1936. (Vide G.O. No. 1076-77 dated 6th July, 1936). The Director of Commissioner has proposed a provision of Rs 2000 in the Budget Estimates of the Chattram Funds for the year 1938-39, on account of both these Institutions. The private secy to H.H. has also sent a copy of his letter dated 24.6.1938 to the M.C in the matter of obtaining sanction to the continuance of these two grants-in-aid for the next year. If approved, the proposals regarding the continuance of the grant. And he will be reminded thereafter if they are not received early. (linked files)

(4) The grants of Rs 1000 each for the Sri Gurumba maternity and Vani Vilas maternity and Child Welfare centres were merged into one grant of Rs 2000 in G.O. No. 569-70 dated 15th Oct. 1936. But no orders have

grants to the Gunamba and Vani Vilas maternity and child welfare centres.

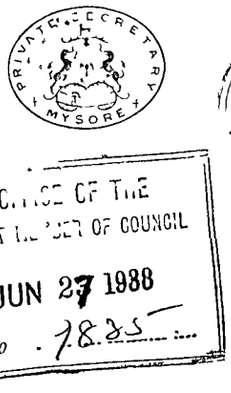
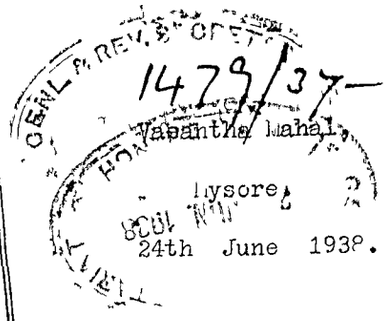
General and Revenue Secretariat





My dear Rajagopalachari,

I am writing to ask the favour of your good offices in connection with the annual Muzrai grants to the Gunamba Maternity and Child Welfare Trust and the Sri Vani Vilas Maternity and Child Welfare Centre. The sanctioned annual grant of Rs.1,000 for the Trust expired in 1936-37 and the annual grant of Rs.1,000 for the Sri Vani Vilas Centre will expire at the end of 1937-38. Through a most unfortunat oversight the Trust office have failed to ask for a renewal of the grant till now. The matter has just come to my notice and an application for a renewal has been sent to the Muzrai Commissioner.

You were largely responsible for the initiation and organisation of the Trust and later when you were Muzrai Commissioner, you very kindly secured us the annual grant for the Trust. The grant has now come to be regarded more or less as a permanent source of income and the budget of the Trust has been framed accordingly. The activities of the Trust are expanding rapidly and I am sure their value has been widely recognised.

As you are aware, a Viceregal visit is probable in January next. Their Excellencies are much interested in maternity and child welfare work, in anti-tuberculosis propaganda and in the question of nutrition. The scope of the work of the Trust and its centres includes all these, and we are very keen on impressing Their Excellencies with the work that is done in Mysore in regard to matters in which they are so much interested. To this end we are going ahead with the construction of two new centres and we are increasing the equipment and extending the activities of the other centres All this invdves a large outlay, both initial and recurring. We cannot afford to f go at this period of our development the generous assistance we have so far receiv from Government. I shall be greatly obliged if you will very kindly give us your help in securing the renewal of the sanction.

Yours sincerely,

SNK.

Draft.

My dear Sir Charles,

I am in receipt of your letter of the 24th instant in the matter of the annual Muzrai grant to the Gunamba Maternity and the Sri Vani Vilas Maternity and Child Welfare Centre. I am asking the Secretariat to hurry up the matter and shall see that its disposal is expedited. I need hardly assure you that it ~~will be my endeavour~~ I shall try my best to ~~do all I can~~ to help the noble cause.

Yours sincerely,

Sir Charles Todhunter, K.C.S.I.,
Private Secretary to His Highness
The Maharaja of Mysore,
Mysore.

2 37 2

Vasantha Mahal,

Mysore.

24th June 1938.

Dear Mr. Subrahmanya Iyer,

I hope you will forgive my troubling you with copy of a letter which I have just written to the Muzrai Commissioner on the subject of the Muzrai grants to the Gunamba Maternity and Child Welfare Trust. I shall be very grateful if you will be so good as to help us in securing a favourable consideration of the matter by the Government.

Yours sincerely,

Vasantha Mahal

Mysore.

24th June 1938.

Dear Mr. Anantaraman,

The Gunamba Maternity and Child Welfare Trust and the Sri Vani Vilas Maternity and Child Welfare Centre have been receiving annual grants of Rs.1,000 each from the Muzrai Department. The sanctioned grant for the Trust expired in 1936-37 and the grant for the Centre expires after it is drawn for the current year The Trust office unfortunately lost sight of the fact that renewal of the grant had to be applied for. An application is now being submitted to you, as Muzrai Commissioner, by the Joint Secretaries of the Trust for the renewal of the grant.

I hope you will pardon my making a personal appeal to you to do what you can to prevent the work of the Trust suffering from this oversight. The activities of the Trust in general and of the Sri Vani Vilas Centre in particular are expanding and there is widespread demand for a further extension of their activities. The Muzrai grants have been a great boon to us in the past, and we have come to regard them as permanent sources of income for the Trust.

As you are aware a Viceregal visit is probable in January next Their Excellencies are much interested in maternity and child welfare work anti-tuberculosis propaganda and in the question of nutrition. The scope of the work of the Trust and its centres includes all these and we are very keen on impressing Their Excellencies with the work that is done in Mysore in regard to things in which they are most interested. To this end we are going ahead with the construction of two new centres and we are increasing the equipment and extending the activities of the other centres. All this involves a large outlay both initial and recurring and we cannot afford to forego at this period of our development the generous assistance we have so far received from Government. I should be greatly obliged to you if you would very kindly recommend to the Government that sanction should be accorded to the request contained in the application which the Joint Secretaries of the Trust have separately submitted to you.

Yours sincerely,

Inc: Chy

GENL & RE.. SECRETARIAT
15 JUL 1938

OFFICE OF THE MUZRAI COMMISSIONER
IN MYSORE.

Bangalore, 4th July 1938

P.C. 30/7/38

FROM

K. V. ANANTARAMAN, ESQ., B.A.,
Muzrai Commissioner in Mysore.

To

C. Subrahmanya Aiyar, Esq., B.A., B.L.,
Secretary to the Government of His Highness
the Maharaja of Mysore,
General *Department.*

GENERAL SECRETARY.
6 JULY 1938

SIR,

Grants-in-aid
to the
Gunamba Maternity and Child Welfare Trust
a n d
Vani Vilas Maternity and Child Welfare Centre,
Mysore.

I have the honor to forward herewith a copy of letter No. Nil dated 24th June 1938, received from the President of the above institutions together with its enclosures, in original, and also a copy of renewal application No.517 of the same date, received from the Joint Honorary Secretaries of the Institutions along with its enclosures, in original, requesting for the further continuance of the grants-in.aid of Rs 1,000 each per annum, payable from the Chattram Savings Fund; and to state as follows:-

Although, the terms of the two grants, as individually sanctioned in the Government Orders mentioned in the pre-amble to G.O.No.569-70/Muz.85-36-3 dated 15/17th October 1936 expired at the end of 1936-37 and 1937-38, respectively, according to the terms laid down in this Government Order, no specific time limit has been fixed for the consolidated grant of Rs 2,000 per annum approved on account of both the institutions, as per amplified arrangements ordered therein in respect of the two grants.

6

As both these grants have been brought under the purview of the general Order of Government No.2159-60/Muz.347-27-2 dated 26th May 1928, as already mentioned in my letter to Government, No.C.1333/37-38 dated 11-6-1938, submitting the budget estimates of the Chattram Savings Fund for 1938-39, and in view of the conditions governing such grants prescribed in the said Government Order having been modified in the case of these grants, I consider that their continuance depends upon the Trust Authorities, satisfying conditions (iii), (iv), and (v) imposed in the Government Order dated 15/17th October 1936.

I beg to invite kind reference to item 11(d) under expenditure in the ~~current year's~~ budget of the fund for 1937-38 sanctioned by Government, in their Order No.183-4/Muz.312-36-2 dated 10th August 1937, which relates to the continuance of the grant of Rs 1,000 pertaining to the Gunamba Maternity and Child Welfare Trust, whose term, as originally sanctioned in the Government Order of 28th November 1933, expired at the end of 1936-37.

From the Auditor's certificate dated 1-3-1938, the actual expenditure for the calendar year 1937 of the two institutions is found to be Rs 25,454. Excluding two items of expenditure under main heads VII and VIII of the enclosed statement for the year, viz., that, on stock articles purchased and the cost of building constructed aggregating to Rs 5,412 the recurring expenditure on maintenance was Rs 20,042. It will also be seen from the enclosed (revised) budget for 1938 dated 24th June 1938, the total expenditure amounts to Rs 41,910. Deducting, similarly, the two capital items of expenditure under the abovementioned two heads amounting to Rs 19,325, the net recurring cost of maintenance works out to Rs 22,585. Thus, the conditions imposed on these grants are satisfied.

In view of the above explanation and the satisfactory and useful work done by the institutions, I beg to recommend that formal sanction of Government may kindly be obtained, to continue these grants permanently, subject to the Trust Authorities satisfying the conditions imposed in the Government Order of 15/17th October 1936.

I have the honor to be
Sir
Your most obedient servant

M. Chandrasekhara

Muzrai Commissioner

4-7-38

Letter No.517 dated 24-6-38 from the Joint Honorary Secretaries, Gunamba Maternity and Child Welfare Trust, Mysore, to the Muzrai Commissioner in Myso

---

We are directed by the Committee of the Gunamba Maternity and Child Welfare Trust to submit for favour of your sympathetic consideration their request for the renewal of the annual Muzrai grant of Rs 1,000 each to the Gunam Maternity & Child Welfare Trust and Sri Vani Vilas Maternity and Child Welfa Centre.

The Government of His Highness the Maharaja were pleased to sanction (Vide G.O.No.2149-50/Muz.259-30-2, dated 31st March 1931), an annual grant Rs 1,000 to the Gunamba Maternity and Child Welfare Trust for a period of thr years from 1931-32. In 1933, the Muzrai Commissioner recommended to the Government that, in view of the good work that was being done by the Trust, the grant should be continued for another three years. The Government were pleased to sanction the proposal in their Order No.757-8/Muz.130-33-2 dated 27/28th November 193

In 1932, the Government transferred to the Sri Vani Vilas Centre the grant-in-aid of Rs 1,000 a year set free by the discontinuance of the payment to the Vriddhasrama at Mysore. This grant to the Sri Vani Vilas Centre was sanctioned for three years in the first instance and renewed in view of the usefulness of the Centre to the public for another three years in G.O.No.1076-77/Muz.184-35-2 dated 6th February 1936.

In this connection, we wish to draw your attention to Government Order No.569-70/Muz.85-36-3 dated 15/17th October 1936, sanctioning the merging into an annual grant of Rs 2,000 of the two grants of Rs 1,000 each, payable to the Gunamba Maternity and Child Welfare Trust and the Sri Vani Vilas Maternity and Child Welfare Centre. The first was renewed for three years from 1934-35 and expired in 1936-37, and by an unfortunate oversight in the office the renewal of the grant was not applied for earlier. The second was renewed from 1935-36 and will expire after the grant for 1937-38 is drawn. We think it desirable that the time of the expiry and the renewal of the two grants which are now merged into one should synchronize with each other. Having this in view, we request that you will be so good as to recommend to the Government that they sanction the grant of Rs 1,000 to the Gunamba Maternity and Child Welfare Trust for the year 1937-38 and a consolidated grant of Rs 2,000 to the Trust and the Sri Vani Vilas Centre for a period of three years from the year 1938-39.

In approaching you with a request for the renewal of the grants, we beg to invite your kind attention to the fact that the work done by the Trust and the Centre in the cause of women and children has increased both in volume and variety. Encouraged by the generous financial assistance received from

the Muzrai Department we have undertaken several schemes of welfare work. We are actively striving for the prevention of tuberculosis. We are keenly interested in the question of nutrition and are giving practical lessons, not only in the preparation of balanced diets in general, but also in promoting the earlier weaning of babies. At this stage of their development we provide for them the best substitute for mother's milk. In addition to the indoor children's clinics we have now introduced outdoor children s clinics where children up to the age of seven years are given milk, baths, medicines and medical advice in cases of complicated and chronic illness. The numbers treated run into several hundreds every month. The Trust are now conducting or aiding four nursery schools. It is our ambition to have a Maternity and Child Welfare Centre, a solarium and a nursery school within easy reach of the residents of every mohalla in the City. All this work involves large investment on buildings and equipment and substantial provision for working expenses, as will be seen from the budget estimates sent herewith for your kind perusal. We would, in particular, invite your kind attention to the provision of Rs 13,500 made in the budget for the new buildings for the ~~Free~~ Sri Meenambal Centre and the Sri Sheila White Centre. The construction of these is expected to be completed before close of the year. The Muzrai grant is indispensable for putting these centres into working order and for maintaining them efficiently and usefully.

We are looking forward with great interest to the proposed Viceregal Visit to Mysore and we are anxious to complete our schemes before the visit. We wish to impress upon Their Excellencies that Mysore is foremost in things that Their Excellencies are most interested in, namely, anti-tuberculosis work and propaganda for nutrition. We may be permitted to observe that the Annachattram savings fund and the savings from the Vriddhasrama grant cannot be used for a more appropriate purpose.

We beg to point out that our ambition will remain an unrealised dream without the continuance of the generous assistance so far given by the Muzrai Department. The good work that the Trust and the Centre have been doing has been recognised and commended by several distinguished ladies and gentlemen who have seen the work for themselves We have no doubt whatever that the Muzrai Department too will appreciate the usefulness of the Trust and the Centre and will readily recommend to Government the renewal of the annua grants

---

Govt Agent
24. 6. 193[illegible]

Letter No.Nil dated 24-6-38 from the President, Gunamba Maternity & Child Welfare Trust, Mysore, to the Muzrai Commissioner in Mysore.

Adverting to G.O.No.1076-77/Muz.184-35-2 dated the 6th February 1933, and G.O.No.569-70/Muz.85-36-3 dated 15/17th October 1936, I have the honor to forward herewith a grant-in-aid bill for Rs 1,000 in favour of the Sri Vani Vilas Maternity and Child Welfare Centre at Mysore. A copy of the budget of the Trust as well as one of the audit report on the accounts of the Trust are enclosed.

By an unfortunate oversight no application was submitted to you for renewal of a similar grant to the Gunamba Maternity and Child Welfare Trust, the sanction for the grant of which expired in 1936-37. The Honorary Secretaries of the Trust are addressing you separately in this matter. Meanwhile, I should be very grateful if you would be good enough to take such action as would secure a renewal of this grant which is very urgently needed for the work of the Trust.

Report for the Year 1937.

General.

THIS report deals with the joint activities of the Gunamba Maternity and Child Welfare Trust and the Mysore City Branch of the Indian Red Cross Society. The accounts of the Trust, as in previous years, were kept distinct and the income from special endowments was spent strictly in accordance with the conditions imposed by the donors.

Committee.

The following statement gives the names of the members of the Committee of the Gunamba Maternity and Child Welfare Trust and of that of the City Branch of the Indian Red Cross Society. The names of the Members of the Gunamba Maternity and Child Welfare Trust are shown in block letters.

1. **Mr. K. Basavaraj Urs,** M.A., BL.B.
2. **Dr. K. S. Captain,** M.D., B.S., D.T.M. & H., L.M.
3. Miss L. Cotelingam, M.A., L.T.
4. Swami Deshikananda
5. Mr. H. L. Devaraj Urs
6. **Miss I. Frodsham**
7. **Dr. A. G. Gillespie,** M.B., CH.B.
8. „ **M. V. Gopalaswami,** B.A., PH.D.
9. **Mr. A. Govindaraja Mudaliar**
10. „ A. Krishna Rao, B.A., B.L.
11. Dr. C. Krishnaswami Rao, B.A., M.B.C.M., M.R.C.P., M.R.C.S.

undertaken several schemes of welfare work.

G. R. S. App. F VI—G 2]
SUBJECT .....

12. **Mr. M. K. Madhava Rao Powar**
13. „ M. G. Mehkri, B.A., *LL B*
14. „ Mohamed Sait
15. **Dr. S. C. Misra,** F.R.C.S.
16. Mr. N. Neelakantappa, B.A., B.E.
17. **Dr. (Mrs.) B. Perriton,** M.D.
18. „ D. S. Puttanna, B.A., L.R.C.P & S., F.R.C
19. „ **A. J. Ram,** L.M. & S.
20. **Rao Saheb Mr. M. Ramaswamy** (Joint Honorary Secretary).
21. **Dr. J. F. Robinson,** F.R.C.S., M.D.
22. **Dr. (Mrs.) E. D. Rosenthal,** M.D.
23. „ **Ratnamma Isaac,** L.R.C.P., M.R.C.S.
24. **Sri K. D. Rukminiamma,** B.A.
25. **Rev. G. W. Sawday,** K.I.H.
26. **Dr. S. Seshagiri Rao,** B.SC., M.B.B.S., D.P.H. (Joint Honorary Secretary).
27. Mr. M. R. Sreenivasa Iyengar
28. „ **M. A. Sreenivasan,** B.A.
29. The District Health Officer, Mysore District
30. Mr. W. H. Theobald
31. **Mrs. W. H. Theobald,** K.I.H.
32. **Sir Charles Todhunter,** K.C.S.I., J.P. (Chairman)
34. **Mr. M. Viraraja Urs,** B.A., B.L. (Hon. Treasurer)
35. „ **D. B. Viswambhariah**

In the course of the year, Dr. M. V. Gopalaswami resigned his membership of the Trust owing to pressure of other work. Mr. M. G. Mehkri succeeded Mr. T. G. Rama Iyer, who was transferred as Director of Agriculture, Dr. D. S. Puttanna took the place of Dr. J. F. Robinson on his departure on leave and Mr. Neelakantappa resigned on account of his transfer from Mysore. Dr. K. S. Captain succeeded Dr. Ratnamma Isaac on the latter's transfer from Mysore.

Changes in the Staff.

Dr. B. S. Ramanna, B.SC., M.B.B.S., continued as Medical Officer of the Trust. Dr. T. Kannamma, the

lady doctor, was appointed to the Government Service and left the service of the Trust on the 26th June 1937. Dr. Pankajam Maduram, M.B.B.S., was appointed in her place as the lady doctor of the Trust and has been working since the 7th September 1937.

The State Branch of the Red Cross Society are, with the Trust's permission, making use of the services of the lady doctor of the Trust for holding ante-natal and baby clinics at Seringapatam and French-Rocks once a week, and are paying an allowance for this service.

Maternity and Child Welfare.

Several changes in the policy of the Trust were discussed in the report for the year 1936, the two chief items of which were the introduction of other foods in addition to milk, and the popularisation of the clinics so as to extend the benefits of the child welfare centres to many children besides those actually brought on to the books for receipt of doles of milk.

Food.—The principle of the substitution of other foods for milk from about the 8th month having been accepted, a committee of doctors and others prepared a table of milk and other foods to be given to the children at different ages. Expert opinion was taken on this table and a final table of advice to mothers on the feeding of children was drawn up. This was translated into Kannada and printed and widely distributed.

Meanwhile Dr. Gillespie and Sister Vale very kindly conducted a course of classes on the methods of cooking of the foods to be added to the milk at the Holdsworth Memorial Hospital, and trained the nurses of the Trust. The nurses in their return are teaching the mothers that attend the centres the preparation of these foods.

At three centres, namely, the Sri Vani Vilas, the Gajasala and the Sri Mallamma these foods, *viz.*, vegetable broth, mashed vegetables, rave sajjige and ragi rotti, were introduced in October 1937. These are now being regularly prepared at these three centres and given

to the children in accordance with the table drawn up. It is reported that the children have taken readily to the new foods and are greatly benefited by them. It is proposed to extend this experiment as soon as possible to all the centres. Meanwhile milk has been distributed in centres of both classes. Cod liver oil. tomato and orange juice have also been distributed as before.

The most important lesson learnt from this experiment is as regards the cost of feeding a child. It was thought when the experiment was undertaken that, when some vegetable or other food was given with the milk, it would be possible to reduce the quantity of milk given and so to equalise the expenditure. It was found, however, when the tables were worked out, that the most authoritative tables provided for quantities of milk were quite as large as those previously given with other foods in addition. In fact in some cases the quantity of milk was considerably larger. Thus for instance, it has been worked out that, priced at the present ruling rates in Mysore, the cost of feeding a child of eight months at the scale given by Sir Truby King for children of that age in New Zealand would amount to Rs. 7-8-0 a month. This, of course, is out of the question for mothers of the poorest classes, and therefore further enquiries have to be made as to how to get the best possible value out of such money as is available.

Another lesson that has been learnt, as a result of the closer enquiry that has been directed to individual cases, is that in some cases, where children have been put on the roll for milk for special reasons of a temporary character, these reasons have ceased to exist lon g before the normal period for which children have been kept on the roll in the past. Further enquiry is being made into this point in order to ensure that the free distribution of milk may be confined to the cases in which it is an absolute necessity, the commonest reasons being that there is no mother or that the mother has no milk for the child.

Clinics.—As was stated in the last year's report, arrangements have been made for the provision of one

Baby clinic and one ante natal clinic every week at each centre, including that conducted by the Civic and Social Progress Association The clinics are, as usual, held with the help of the voluntary lady doctors and by the two doctors of the Trust. A table showing the number of clinics held at the different centres and the attendance at them is appended. It will be seen that the clinics are now quite popular. The grateful thanks of the Trust and the Society are due to the voluntary doctors, who have continued to help the undertaking in the holding of these clinics with the same zeal and enthusiasm as before.

Out-door Clinics.—In addition to the above, Dr. Ramanna held at each centre one out-door clinic every week for children between the ages of 1 and 7 years, other than those attending the centres. Medicines were dispensed for minor ailments at the centres and advice and prescriptions given in other cases. The dispensaries in the city continued to make up the prescriptions given by the Trust's doctors.

In April 1937 the Committee decided that, as a further means of popularising these clinics, small quantities of milk might be distributed to the children attending them and a provision of Re. 1 per centre per week was made. The experiment was greatly welcomed by the mothers, the clinics became more popular, and in October the Committee increased the provision for milk from Re. 1 to Rs. 1-8-0. The total number of attendances in the year amounted to 12,255. The arrangements for weighment of the babies were used in all cases and the special provision made for baths was utilised in a large number. A number of minor treatments was given.

Lantern Lectures.—In August 1937 the Trust purchased, with the help of Mr. W. H. Theobald, a projector for Rs. 350 out of Mr. Vittal Rao's kind donation for this purpose, and in October, Mr. C. B. Taylor, Superintendent of the Mysore Gold Mining Co., Marikuppam, very kindly presented a silver screen for use with it. A programme of lectures was undertaken by Dr. Ramanna,

and Mr. Vittal Rao inaugurated the first cinema show on the 29th September 1937.

Seventy shows have been given since then in the different mohallas of the City. A list of the films shown and of the lectures given is appended.

Distinguished Visitors.

Extracts of some of the notes recorded in the visitors' book by distinguished visitors during the year 1937 are appended :—

"A most interesting example of the progressive "thought which stimulates the progress of Mysore. I "have enjoyed and profited, for work in London's slum "areas, from this visit."

7th January 1937. (Sd.) LEONARD W. MATTERS,
Ex. *M. P., London Representative of "The Hindu."*

"We, the women attending the World Conference of "the Y.M.C.A. at Mysore, are deeply grateful to Sir "Charles Todhunter for making a visit to the Centre "possible. One and all are deeply impressed by what is "being done in Mysore for women of the poorer classes "and their children. The variety of the work being done, "the wise guidance given to mothers, and the tender "care given to the babies and little children are a revela- "tion to us, and a true indication of the fine spirit of "service which we have observed with much admiration "in Mysore. We are carrying to our respective countries, "the knowledge and example of a valuable piece of "work."

(Sd.) Mrs. G. Chamberlain, London.
" N. Nasir, Nagpur, C.P.
" R. Adolfo, Philippines.

Mrs. A. J. Elliott, Illinois.
" Lightbody, Edinburgh.
" Luxmoore, London.
" Turner, Valparaiso, Chile.
" Hayes, England.
" Angela V. Ramos, Philippines.
" Rena Datta, Lahore.
" Alice S. Frosst, Montreal.
" Lucy Jane Slack, New York.
" Edith R. Strong, Geneva.
" Jean M. Aiman, Calcutta and Scotland.
" Annie Abell Williams, New York City.

"I have been very favourably impressed with the "health work at these centres, especially the preventive "tuberculosis work. My work is in the Methodist "Mission Girls' Boarding Schools of North India. I "have seen the maternity and child welfare work up "there and so have been most pleased to see the progress "being made under the Maharajah of Mysore."

(Sd.) AGNES DUNN, R.N.P.H.

"It is a delight to see such work as this and to "find such capable and devoted staff members. Long "life and prosperity to these efforts for mothers and "children."

(Sd.) GRACE HILLYARD (MRS. SYDNEY),
Berkely, California.

"I was so pleased to see the happy atmosphere of "this Centre. The children of the land need to be taught "how to play and how to learn by playing."

(Sd.) (CANNON) C. E. TYNDALE-BISCOE.

"We, delegates from Ceylon, are much impressed "by the very useful work done in this Baby Clinic and "Ante-natal Clinic."

27th April 1937. (Sd.) I. PIERIS, KANDY, CEYLON,
S. PERESA,
R. JAYEWARDENI.

"Good work is being done in this Centre."

6th May 1937. (Sd.) C. MUTHU. (DR.)

"Delightful to see these tiny children in such a "happy healthy green retreat with so much care for "them."

16th June 1937. (Sd.) (LADY) JESSIE H. TASKER.

"Rao Sahib M. Ramaswami took my wife, my "daughter and myself round the child welfare centres "this morning and the solarium. We were very happy "to see the good work done, the cleanliness of the places "and the happiness of the mothers and the children. "We congratulate Rao Sahib M. Ramaswami and his "fellow workers on their enthusiasm and their earnest-"ness. We wish all success to their good and humani-"tarian work."

24th June 1937. (Sd.) S. SATYAMURTI.

"Children are the assets of a nation and each child "saved and made healthier adds to the assets of the "country. I was very happy to be here and see all the "efforts made to help and save children."

6th July 1937. (Sd.) JAMSHED NUSSERWANJE.

"An institution of which Mysore may justly be "proud. Congratulations to the thoughtful donor and "to all who have helped to bring this into existence. "May many more like this spring up and thus the suffer- "ings of distressed children be removed."

23rd July 1937. (Sd.) G. A. NATESAN.

"I am grateful to Mr. Sreenivasan and Rao Sahib "Mr. Ramaswami for taking me to this institution which "is doing such beneficent work. Big cities in British "India might well copy some of the activities of Mysore "State."

12th August 1937. (Sd.) SIR BADRIDAS GOENKA.

"My wife and I were taken round this welfare and "maternity home by the Vice-President and the doctor "in charge. It is difficult to speak too highly of the "noble work which is being done here. The saving and "helping of child life is laying the foundations of healthy "citizens and servants of the people of the future. We "looked at some of the registers and were gratified to "find how by careful feeding, bathing and other treat- "ment the children are improving in health. One child "in five months gained more than 5 lbs. in weight. The "institution reflects great credit to the enlightened and "humanitarian rule of His Highness the Maharaja, the "most enlightened ruler in India."

13th August 1937. (Sd.) J. N. GUPTA,
(Retired I.C.S.)

"I have been much interested in seeing this institu- "tion. It is extremely well run, everything in excellent "order."

(Sd.) E. L. DODSON, M.D.

"Mysore can deservedly be proud of its various "Red Cross activities. The maternity and child welfare "work with its various associated activities are very "well managed and extremely popular. To one who is "not familiar with the intricate problems of tuberculosis, "all the above activities may appear as dissociated prob- "lems, but they are the surest foundation of all Anti- "tuberculosis work. The housing scheme and new "extension with extensive 'lung spaces' are an unique "feature in Mysore. The work is sure to grow and "prove of highest value for the future welfare of the "State. All this work can only grow from a wise and "sympathetic government and the work of a band of "selfless social workers. This is an example for others "to follow."

21st September 1937. (Sd.) B. K. SIKAND.

"Although my visit to the Centre and Solarium "was rather hurried owing to a very full programme, I "was impressed with the fine building and the care with "which every detail of the work is organized. A very "interesting display of the meals given to children at "various ages had been arranged at the time of our visit. "The Centre is fortunate in having a highly qualified "staff of doctors and others and in the day to day "interest shown in every item of the work by Sir "Charles Todhunter."

"I hope the Red Cross will give careful considera- "tion to the problem of training workers as there is a "tendency for the number of institutions to outstrip the "number of fully trained workers in the State. What "is needed now is to encourage the best type of women "workers to take up medicine, nursing, health visiting "and midwifery in increasing numbers. Nobody can "serve Mysore better than her own daughters."

16th October 1937. (Sd.) MISS NORAH HILL.

"I visited various welfare centres, Deaf and Dumb "School, etc., with Sir Charles Todhunter. Excellent "work is being done in easing and brightening the lot "of the afflicted and also in looking after the welfare of "mothers and babies of the humbler classes. I wish "this great work every success."

19th October 1937. (Sd.) H. D. RICE.

"The visit to the Welfare Centre was one of the "happiest and most heartening experiences I have had "in India."

5th November 1937. (Sd.) REKTOR L. ZILLIACUS,
Chairman,
New Education Fellowship.

"It gave us great satisfaction to visit the child "welfare centres conducted by the Gunamba Trust. "Great work is being done for the improvement of "child-life in the City."

8th November 1937. (Sd.) N. S. SUBBA RAO,
LEELAVATHY SUBBA RAO.

"It has been a great pleasure to me to see the "Child Welfare and Maternity Centre. I have seen "these centres in London and I also work in a very poor "quarter of London among children. It was interesting "to see the food given to the children and the tomato "juice, corresponding to the orange juice and rice pud-"dings that we give in London. I wish the centre "every success. It is a splendid work."

17th November 1937. (Sd.) CATHERINE G. WALTER.

"I was very pleased to visit this institution just "at a time when it is in full swing. The child welfare "work is done on right lines. I would suggest a com- "parative statement to be prepared every year between "treated and untreated children as evidence of the need "for such institutions. With regard to ante-natal work "I would suggest a record of pelvic measurements in all "cases of primipara. The place is kept neat and clean."

2nd December 1937. (Sd.) T. S. S. RAJAN.

"Much pleased to see the institution this morning."

27th December 1937. (Sd.) SIR SYED NOWSHER ALI.

"An excellent institution."

27th December 1937. (Sd.) A. C. CHATTERJI,
Lt.-Colonel, I.M.S.

"It is a pleasure to see this maternity centre, which "I believe is the best I have seen in India."

27th December 1937. (Sd.) G. C. SEN.

"I was very pleased with all I saw at the Vani "Vilas Centre this morning. The system of keeping "cards was very satisfactory and the records well kept. "Everything was clean and tidy.

"I believe it is high time the Government of "Mysore established a nursing council on the lines of "the other provinces for control and registration of "nurses, midwives and health visitors, under its aus- "pices. A trained health visitor is the connecting link

"between the centre, maternity home and the houses of "the poor, and will go a great way in popularising the "above work.

"Further, the State should have separate training "for midwives in the rural and urban areas to suit the "requirements of each; lastly the body managing and "controlling the six centres should have no interference "from outside bodies who are not conversant with "the work carried on in the centres and the areas "or districts catering for the needs of the people "concerned.

"I wish every success to the institution doing such "useful and splendid work under the able care and "guidance of Sir Charles Todhunter who very kindly "showed me round and informed me on various points "connected with the administration of the above."

27th December 1937. (Sd) SIR MANGALDAS V. MEHTA.

Creche at the Sri Krishnarajendra Mills.

The creche at the Mills continued to work, with a nursery school attached to it The creche had an average of 16 babies on the rolls during the year. Antenatal and baby clinics were conducted every week alternately at the creche as part of the general programme.

Nursery Schools.

The nursery school conducted by the Trust at the Gajasala Centre has become very popular and has nearly doubled in strength, which during the last year was 103. The following is the strength of the other three nursery schools conducted by Mrs. Theobald towards which the Trust is giving grants —

Kindergarten and Nursery School, Narayana Sastri Road	156
Nanjaraj Bahadur Chattram Nursery School	149
Nursery School, Kantharaj Urs Chowk ..	60

The nursery school movement, about which the *Wood-Abbott Report* says "Until a system of infant classes staffed by trained women is established in India education will remain unsound at its very foundations," is becoming increasingly popular, and there is very great scope for expansion, as the present schools are only serving a small fraction of the total number of children in the city It is the intention of the Trust to start new nursery schools at the Sheila White and Sri Meenambal Centres as soon as the buildings are ready.

Exhibition.

The Society put up as usual four stalls at the Dasara Exhibition of 1937 dealing with maternity and child welfare, nursery schools, anti-tuberculosis work and nutrition.

Special emphasis was laid during this exhibition on nutrition. Two points were particularly stressed in this connection. One was the necessity for the greater use of milk as an article of daily diet for all. Posters explaining the great amount of nutrition contained in milk, and tables comparing the nutritive values of cow's milk, buffalo's milk, milk made from imported skimmilk powder and goat's milk were exhibited, and propaganda for the larger use of goat's milk and skim-milk powded, where people were unable to obtain cow's milk on account of its cost, was undertaken.

The second point emphasized was the necessity of a balanced diet. Posters illustrating the ingredients required in a balanced diet as recommended by the Institute of Nutritional Research and comparing a well-balanced diet with an ill-balanced one were exhibited, together with samples of the articles of diet given to the boys at the School for Deaf and the Blind Boys, which was modelled on Dr. Aykroyd's recommendations. Valuable propaganda was done in these directions and, it is believed, has been much appreciated.

In addition to the above the Trust had prepared

G. R. S. App. F VI—G 2]
SUBJECT .....

locally large quantities of biscuits made of ragi, jola and wheat-flour and sold them at an anna a packet. The large sales of these biscuits at the Exhibition is, it is believed, an indication of the fact that the nutritive value of these popular grains is being realised.

The committee take this opportunity of thanking Mrs. Theobald, who took great pains in getting up the Society's stalls at the Exhibition generally and particularly in getting the biscuits prepared and packed in an attractive manner at short notice.

Anti-tuberculosis.

There was no change either in the staff or in the methods of work, and the solarium at the Sri Vani Vilas Centre continued to do good work and was very popular. The children are as usual treated at the centre and given nutritious food, and play in the open air is also provided for them.

The following figures give a summary of the work done during the year :—

Number of houses visited	117
Do contacts	138
Do intradermal tests	208
Number positive	138
Percentage of positives—total	66 34

Solarium.

Number on the roll at the beginning of the year	26
Number admitted during the year	99
Number discharged	87
Average daily attendance	30

On September 18, 1937, Major-General W. C. Bradfield, Director-General of the Indian Medical Services, visited the solarium and wrote—

"I am very glad to have seen this well managed "and popular institution. I was specially impressed "with the solarium, a form of treatment which will be "of great help in solving the difficult problem of dealing "with tuberculosis."

He has further circularised all the institutions in India doing similar work, commending the value of the solarium as it is worked in Mysore.

Dr. B K. Sikand, Organizing Secretary, King George V Thanksgiving (Anti-tuberculosis) Fund, Delhi, also visited the institution on the 9th September 1937 and expressed satisfaction at the work done.

Encouraged by the success of the solarium at the Sri Vani Vilas Centre, the Trust have resolved to start another at the Sri Subrahmanyam Centre. This actually formed part of the building programme for the year, but owing to various difficulties in the way, it has not been possible to get the work completed yet. It is hoped that the solarium will be ready and working by July 1938.

Miss Norah Hill's Visit.

An important event of the year was the visit of Miss Norah Hill, Organizing Secretary of the Indian Red Cross Society at New Delhi. She paid her visit during the Dasara festivities and visited all the maternity and child welfare centres and nursery schools in the City and on the 16th October met all the local workers in the Sri Vani Vilas Centre and gave a talk on Red Cross work in all its aspects. After the meeting, a cinema show was arranged at the Co-operators' Home in the Chamaraja Road at which Miss Hill exhibited a valuable film prepared by the Red Cross Headquarters on maternity and child welfare work. After this film Mr. C. B. Taylor, Superintendent of the Mysore Gold Mining Company, Kolar Gold Fields, showed a film, prepared by the Mining Company, on welfare work at the mines. Miss Norah Hill expressed great satisfaction at the progress of the work in Mysore and said she was particularly impressed with the care with which the details of the work were organised.

Building Programme.

It is much to be regretted that, owing to a variety

of causes, the progress made in the building programme has been very poor.

Sheila White Centre at Sawday Road.—The original plan was to build the combined maternity and child welfare centre on a site given by the municipality and to acquire a house for nurse's quarters immediately behind it. Difficulties arose, however, in respect of the acquisition of the house, and the price was found to be more than the Trust could afford. The alternative was therefore adopted of acquiring instead another piece of the frontage contiguous to the portion on which the building had been begun. This involved fresh acquisition proceedings and a new plan. The acquisition is now well in hand and the new plan has just been approved. It is hoped that the work will now proceed without any further delay. The Trust tender their most grateful thanks in this connection to the Improvement Trust who have kindly consented to bear half the cost of the acquisition of the new property, which is estimated at Rs. 900.

Solarium at the Sri Subrahmanyam Centre.—The plan has been prepared and the site selected, but difficulties have been found in getting a contractor who will put through the work at a reasonable rate. It is hoped that a contractor will now be secured through the kind assistance of the Department of Public Works.

Play Centre and Nursery School at the Nanjaraj Bahadur Chattram.—Another change has come over this scheme with the erection of the new Sri Cheluvamba Maternity Hospital, which will result in the vacating of the buildings at present occupied for this purpose. A very suitable block of these buildings has been promised to the Trust for use for locating both the maternity and child welfare centre now housed in the Devaraj Market and the nursery school now housed in the Nanjaraj Bahadur Chattram. It is hoped that it will be possible to secure possession of this as soon as the maternity hospital building is opened.

Sri Meenambal Centre—The work on this Centre has been attended with more difficulties than any other. The foundations were dug many months back and it was found that the building would interfere with one of the large municipal sewers, the diversion of which would cost a very large sum. The building was then realigned along the western side of the site and fresh foundations dug, when it was found that these were water-logged. The question of getting over this difficulty is still under correspondence with the engineers.

Sri Vani Vilas Centre.—The temple buildings have at last been vacated and the scheme for converting them into quarters for a second nurse is being worked out.

Sri Mallamma Centre.—The Government have very generously given a portion of the Woodyard adjoining the centre premises for the erection of a set of quarters for a second nurse, and endeavours are being made to find a satisfactory contractor to erect the quarters.

The Gajasala Centre.—A scheme was worked out for extending both the maternity and child welfare centres and the nursery school premises, and the consent of His Highness the Maharaja to the extension was obtained. Unfortunately the Trust found the cost of the extension work to be very much more than they had anticipated and they had to put this work back till more funds are available. A small item of work is being undertaken, with the consent of the Palace, in roofing over the store where wood is kept.

Finance.

The usual statements relating to the finances of the combined undertaking together with the report of the auditor, for the year 1937, are attached. The following figures present a brief comparison of the expenditure in 1936 and 1937 under the principal heads :—

32

Name of head	Expenditure in	
	1936	1937
	Rs. a. p	Rs. a. p.
Establishment	8,988 1 0	10,604 7 9
Supplies (milk, medicines, etc) ...	5,440 0 6	5,191 1 5
Contingencies	2,199 11 2	2,666 15 3
Grants to institutions, etc. ...	630 0 0	1,050 0 0
Baby Week and Health Exhibition ...	990 5 6	734 5 2
Dasara Exhibition	229 2 0	171 8 6
Advances	161 7 0	145 0 0
Stock articles	668 9 10	785 2 11
Capital Expenditure	...	7,543 0 0

The following is a note of the principal defects found by the auditor, and the replies to the same :—

I. There are some instances of undue delay in the remittances to the Bank.

These will be avoided in future.

II. Arrears of fees have not been properly collected.

The matter will be enquired into and prompt measures will be taken to see that there is no remissness on the part of the staff in respect of this matter.

III. No receipts are traceable in respect of two sums shown as received as fees, amounting to 4 annas and 8 annas, respectively.

The amounts in question have not been received at all and they have been mistakenly entered by the lady teacher.

IV. Receipts not issued for sums received.

This will be avoided in future.

V. Entrenching on other moneys for recoupment of imprest.

The criticism made is accepted and greater care will be taken in future to get the imprest recouped in good time.

VI. No voucher in certain cases.

33

It is impossible to get vouchers for petty cash purchases made in the market. The Honorary Secretary's certificate may be accepted.

VII. High prices paid in respect of certain supplies.

A deduction is being made in subsequent bills to set off the excess paid.

VIII. Exceeding the budget estimate.

The matter will be placed before the committee for the purpose of ratification.

IX. Irregular supply of milk.

The matter will be enquired into and the conduct of the nurse will be duly taken notice of.

X. Delay in claiming payment.

The parties concerned will be warned.

XI. Charcoal supplies should be on indents and paid for monthly.

The suggestion has already been put into effect.

XII. Delay in payment of electric charges.

This is regretted and will be avoided in future.

XIII. Expenditure on refreshments in connection with the Exhibition shows a great increase over that of the last year.

An attempt is being made to cut down the expenditure in future.

XIV. Differences in dates in respect of Bank transactions.

The Bank have been addressed to clear up the matter.

XV. Share of conveyance allowance to lady doctor payable by the State Branch not brought to the books of the Trust.

This will be done in future.

XVI. Government grant for Nursery Schools.

Action is being taken to address the authorities concerned to expedite the payment of grants for the remaining months.

XVII. Unpaid bills on account of fees for labour cases.

34

Reminders are being constantly issued. The suggestion that the collections received on account of the Nurses' Relief be Fund deposited in a separate banking account will be carried into effect.

XVIII. Printing charges incurred during the Baby Week are high.

It is impossible to follow the usual procedure when there is great pressure of work as there is on these occasions. To avoid the objection now raised, the Assistant Superintendent, Government Branch Press, will be asked in future if he will be good enough to have the bills scrutinized in his office.

XIX. Delay in payment of bill for supply of photos.

The delay is on the part of the photographer who, in spite of several reminders, has not sent a bill.

XX. Extra towels purchased but not used up, though towels were purchased again.

The 20 towels in question will be used up when the next opportunity offers.

XXI. Delay in payment of bills in respect of water tanks.

Payment was not made because no bill was received. Action is being taken in correspondence with the Superintendent, Water Works Department, to settle the bills in question as soon as possible.

XXII. Statement of assets and liabilities.

An endeavour will be made to prepare a statement on the lines suggested.

XXIII. Red Cross Subscriptions.

It has been the practice to credit as membership subscriptions part of the collections made from members during the Baby Week. A book will be sent round in future.

The most important feature of the accounts is the question of the financing of the building schemes which have been referred to above. The following table gives the estimated cost of the various schemes still to be

Amount already received as donation from Nurse Gnanamma	3,500

Balance of amount totalling Rs 9,100 to be met out of the floating balance of the Gunamba Trust (Rs. 5,000 already deposited.)

II. Sri Meenambal Centre.

	Rs.
Total amount of estimate	7,150
Contribution received from the Municipality	2,500
Contribution received from the State Branch	500

Balance of amount of estimate to be met out of the general funds of the Gunamba Trust Rs 4,150.

III. Sri Vani Vilas Centre.

	Rs.
Estimate of cost of converting the temple building	300

To be debited to Sri Vani Vilas Centre.

IV. Sri Mallamma Centre.

Estimate of cost of building a second set of nurse's quarters similar to the existing ones	750

To be met out of the floating balance at credit of the Centre and to be supplemented from the general funds of the Gunamba Trust

V. Sri Subrahmanyam Centre.

	Rs
Estimate of cost of construction of a solarium	300

SUBJECT ....

To be met out of the headquarters grant of Rs. 2,000 for anti-tuberculosis work.

In addition to the above works, repairs and white and colour-washing to the various buildings of the Trust are estimated to cost about Rs. 1,000, which sum will also have to be met out of the general funds of the Trust.

Table of Diet recommended for Children from Birth to 18 Months of Age.

1. The number of times a child should be fed in 24 hours is most important. This varies from two a day for the first two days to four a day after 11 months. The following table shows the most appropriate hours for each age:—

Age	Hours of feeding					
	1	2	3	4	5	6
Days—						
1— 2	...	9—0 a.m.	...	...	3—0 p.m.	9— 0 p.m.
3— 4	6— 0 a.m.	1—30 a.m.	2 p.m.	...	6—0 p.m.	10— 0 p.m.
5—10	6— 0 a.m.	9—0 a.m.	12—0	3—0 p.m.	6—0 p.m.	9— 0 p.m.
Months—						
2— 4	6— 0 a.m.	10—0 a.m.	...	2—0 p.m.	6—0 p.m.	10— 0 p.m.
4— 9	5—30 a.m.	10—0 a.m.	...	2—0 p.m.	6—0 p.m.	10—30 p.m.
9—11	6—30 a.m.	9—0 a.m.	12—0	4—0 p.m.	...	8— 0 p.m.
11—12 and onwards ...	7— 0 a.m.	11—0 a.m.	...	3—0 p.m.	...	8— 0 p.m.

2. The principal item in the diet is milk. In every case in which it is possible this should be mother's milk, which is greatly to be preferred to any substitute. The weaning from the breast to cow's milk should be commenced at 7 months of age by substitution of a mixture of cow's milk and water for one of the breast feeds, the substitution being very gradually increased as time goes on. Where mother's milk is not available cow's milk or goat's milk should be substituted. For children up to six months this should be mixed with sugar and water in the proportions shown in the table below :—

Age of child	Weight of child in lbs.	Milk in chataks	Water in chataks	Sugar to each feed in tea-spoons	Total quantity per feed in chataks	No. of feeds in 24 hours
1	2	3	4	6	7	8
Days—						
1— 2 ...	6½	½	1½	½	2	2
3— 4 ...	6½	1	1½	½	2½	4
5—10 ...	6¾	1½	1¾	¾	3½	6
10—15 ...	6¾	2	1	¾	3½	6
15—30 ...	7	5/8 (10 tea-spoons)	5/8	¾	1¼	6
Months—						
1 ...	8	¾	½	3/8	1¼	6
2 ...	10	1	1½	½	2½	5
3 ...	12	1½	1½	¾	3½	5
4 ...	13	2¼	1¼	¾	3¾	5
5 ...	14	3	1	¾	4¾	5
6 ...	15	3¾	...	1	4¾	5
7 ...	16	3¾	...			

the Muzrai Department we have undertaken several schemes of welfare work.

3 For children of six and seven months no water need be added to the milk

4. The above proportions of milk and water are for children in average condition In individual cases where the condition is abnormal, they should be varied according to circumstances

5 Water to drink should be given to the baby between breast feeds especially when the weather is hot Boil the water, let it cool, and feed with a clean spoon A little orange or tomato juice may be added in the quantities shown in the following table —

Age of child in months	Orange or tomato juice in teaspoons
2	1
3	2
4	3
5	4
6	5
7	6

6. At seven to eight months a commencement may be made in giving other foods with the milk The following table provides for a suitable arrangement of meals .—

7—8 Months.

6 A.M	10 A M.	2 P M.	6 P M.	10 P M.
Milk about 1 pav.	Milk about 1 pav, half a slice of crusty bread with butter or ghee, or a piece of home-made ragi roti with ghee or butter, (1 teaspoonful of yolk of egg unboiled)*	Milk ½ pav; about ½ pav of strained vegetable broth; a crust with butter or ghee or home-made rice roti.	Milk about 1 pav, 2 teaspoonfuls of orange or tomato juice, 16 teaspoonfuls of gruel made out of baked ragi, rice or rave with 2 teaspoonfuls of wheat-flour added.	Milk about 1 pav

* Optional.

SUBJECT .....

9 Months.

Milk about 1 pav.	Milk about 1 pav; a crust with butter or ghee or a piece of home-made roti with ghee or butter, (2 teaspoonfuls of yolk of egg—(unboiled)*	Milk ½ pav; 2 teaspoonfuls of stewed vegetable with dhal well mashed, a slice of bread or home-made roti with butter or ghee.	Milk about one pav thickened with 4 teaspoonfuls of ragi or rice-flour previously well boiled; half a tomato or orange to suck.	Milk about 1 pav.

10—11 Months.

6-30 A.M.	9 A.M.	12 NOON	4 P.M.	8 P.M.
A crust with butter or ghee or home- made roti or chapathi with ghee; 1 chatak of thin ragi rice or rave sajjige, with ½ chatak of milk added.	Milk 2½ to 3 chataks (3 teaspoonfuls of yolk of egg—(unboiled)*.	Milk 2½ to 3 chataks; 1 chatak of vegetable broth with dhal; half a potato well boiled and mashed; a small piece of steam-cooked rice idli or a little rave sajjige with ghee or butter.	Milk 2½ to 3 chataks; home-made roti with ghee or butter; a ripe plantain mashed and ½ orange or tomato to suck.	Milk 2½ to 3 chataks.

* Optional.

12 Months.

7 A.M.	Milk about ½ pav; bread and butter or home-made roti with butter or ghee, a soft boiled egg.
11 A.M.	One chatak of boiled rice with milk or curds, 1 potato and vegetables with dhal; ½ an apple or ripe plantain or a small piece of ripe papaya.
3 P.M.	Milk ½ to 1 pav; bread and butter or home-made chapathi or rave sajjige with butter and ghee.
8 P.M.	Milk ½ pav thickened with puffed rice, aralu or oats or puffed wheat

18 Months.

7 A.M.	Milk 1 pav, bread and butter or ghee or home made chapathi or roti or rave sajjige, 1 soft boiled egg
11 A.M.	Soft boiled rice with vegetables and dhal and with curds or milk, an orange, tomato or a piece of papaya.
3 P.M.	Milk 1 pav; bread and butter or home made roti or chapathi or home-made rice ruli with ghee or butter.
8 P.M.	Milk ½ pav thickened with puffed rice, aralu or puffed wheat.

General Instructions.

1. To ensure a good supply of breast milk for the baby it is very necessary that the mother should take good nourishing food including fruit and green vegetables. It is recommended that she should take at least two cupfuls of milk a day and it is wise to drink it immediately before feeding.

2. At all ages one teaspoonful of lime water should be given in alternate meals three times a day. The lime water may be made by immersing a small quantity of limestone in water and drawing off the water after 48 hours and filtering it.

3. A baby may not take as much solid food as is indicated in the beginning but will gradually acquire a taste for solids and learn to eat it. The mother should persist with great patience in introducing solid foods.

4. Older children should be encouraged to take the porridge and other thickened foods with a spoon. In this case the milk should be given after the solid food.

5. Cod liver oil may be given to babies from the third month especially to babies fed on boiled cow's milk.

6. *Fresh air and sunlight.*—The baby should sleep outside during the day in a cool airy place and in a well ventilated room at night. Never cover the mouth with a cloth. Rub the baby all over with oil every day in the early sunlight.

7. The baby should sleep for long hours in a cot of its own. If he wakes and cries a little water may be given to drink.

8. The baby should be bathed every day and the skin dried carefully after the bath. The clothing and bedding should be kept very clean.

9. *Regular habits.*—Feeding, bathing and sleeping should be done regularly. This is good training for the baby and gives more rest to the mother.

10. *Exercise.*—The baby should be given space to roll about and kick and crawl so that its muscles may develop and grow strong.

11. *Play.*—Play with the baby and encourage him to try and walk and talk. Give large clean wooden toys which can be washed to play with.

12. *Discipline.*—Gentle discipline and the teaching of good habits should be begun from the earliest days and will lead to the happiness of both mother and child. Unwise indulgence of every wish must be avoided or the child will be o ne spoilt.

Instructions for Coocking

The following vegetables are recommended :—

All green leafy vegetables, beans, brinjals, and potatoes. Onions may be given at about 18 months, but not earlier. Garlic should not be given.

The following fruits are recommended :—

Tomatoes, oranges, ripe plantains, papaya, mangoes, and grapes. The cereals recomended are ragi, rice and wheat.

Directions for preparing —

(1) *Vegetable broth.*—Take . . . of fresh green leafy vegetables, wash thoroughly in clean water, and cut into small pieces. Boil in about a pav of water for about one hour. Salt to taste. Strain through fine muslin.

(2) *Gonjee for thickening milk or vegetable soup.*—Take a tablespoonful of good ragi or rice or wheat-flour and make into a paste with a little cold water. Add ¾ pav of water for every ⅛ pav (½ chatak) of ragi or rice or wheat-flour and boil for about 20 minutes, stirring all the while, to avoid forming curds. Add ½ chatak of this conjee to every ½ pav of milk or 4 teaspoonfuls to ½ pav of vegetable soup.

(3) The addition of large quantities of sugar to conjee or other solid foods is liable to derange the stomach. A pinch of salt will enhance the taste and flavour of the food.

(4) *Vegetable broth (unstrained).*—Prepare in the same manner as for vegetable broth (strained), but reduce quantity of water so as to make the finished broth as thick as possible. Salt to taste and mash up the vegetables into a soft pulp with a spoon, taking out the thicker fibres: Add a little conjee.

(5) *Home-made roti or chapathi.*—Use ragi or rice wheat flour and make it into a paste with water and butter or ghee and bake until brown on a slow fire. If desired cover with butter or ghee when baked. The roti if made hard and in the form of finger biscuits can be given into the hands of children of about 8 months to promote development of teeth.

i. Vanivilas Centre latrine etc.	500			
ii. do. Conversion of temple to nurses quarters	150			
iii. Compensation to Kattige Veeriah	700			
iv. Solarium at Subramanyam Centre	300			
v. Erection of flaf staff etc.,	100			
vi. Water tanks at Vanivilas and Subramanym Centres	400			
vii. Gajasala Building repairs	100			
viii. Mallamma Centre Nurses quarters	750			
ix. Gnanamma Centre Building	7,000			5,000
x. Meenambal Centre Building	6,500			
	------	16,500		
		------		-------
		39,235		25,454
		------		------

Details for opening balance:-

	Rs.
Red Cross grant for Meenamba Centre	500
Municipal grant do.	2,500
Floating surplus of Gunamba Trust	4,686
do. of V.V.Centre	8,307
do. of Subramanyam &Mallamma Centres	460
do. of Red Cross	1,433
Rs.	17,886

Opening balance	Rs.	17,886
Add total receipts		28,995
		46,881
Less payments		39,235
Closing balance	Rs.	7,646

Note:- It will be seen from the above statment that the total of the Surplus of Gunamba Trust and aticipated capital grants comes to only Rs. 7686/- as against the contemplated expenditure of Rs. 13,500/- on Gnanamma and Meenambal Centres. Similarly there are not enough funds of Mallamma Centre for meeting the capital expenditure on nurses quarters. But as there is a vast surplus of about Rs.8000/- under Vanivilas Centre, the same may have to be utilised for the above constructions.

SUBJECT .....

Report on the audit of accounts of the Gunamba Maternity and Child Welfare Trust and the Indian Red Cross Society, (City Branch) for the year ended 31st December 1937.

I. Receipts. (a) There are some instances of undue delay in the remittance of receipts to Bank.

e.g. A sum of Rs. 5/- being casual donation received on 22-7-37 was remitted to Bank only on 4-8-37.

A sum of Rs. 46-11-0 being sale proceeds of biscuits received on 22-10-37 was remitted to Bank only on 24-11-1937.
A sum of Rs. 14-8-0 being nursery school fees received on 9-11-37 was remitted to Bank on 23-11-1937.

There has also been an instance of delay in the remittance to Bank of the salary of the nurse in charge of K.R.Mills Creche. The salary for september was remitted to Bank only on 30-10-1937.

(b) Fees from Gajasala Nursery School. In a few months there has been some delay in the accounting for and remittance to Bank of the fee collections received from the nursery school teacher.

e.g. Collections from 23-6-1937 to 12-7-1937 amounting to Rs. 10-8-0 has been taken to cash book and remitted to Bank only on 20-7-37 though received from the teacher on the 12th alone.

The following is an instance of delay in remittance to the office of the fee collections by the nursery school teacher.

e.g. Rs. 8/- being collections upto 2-10-37 was received only on 21-10-37.

The nursery school teacher may be asked to remit the collections by the 10th of every month and the subsequant collections may be remitted as and when received.

On checking the attendence register of Gajasala Nursery School with reference to fee collections, the following are my observations:-

i. Arrears of fees have not been collected properly.

e.g. Out of the pupils who did not pay fees in September and continued on roll in October, 13 pupils did not pay in October. In November 4 of these paid for only October and November and 1 paid for only November and 1 paid all the arrears. In December one of the rest paid for December only, one for Oct.,Nov. and December. The rest were removed from roll in November and December.

Similarly out of 16 pupils who did not pay fees in October and continued on roll in November, 9 pupils paid fees for only November.

2. The receipts could not be traced for fee collections from Lakshmiramana Pandit and Susilamma on 23-8-1937 and 28-11-1937 respectively as noted in the attendence register, for 0-4-0 and 0-8-0 respectively.

3. For certain collections of 27th and 28th November 1937, receipts numbered 779 to 786 are issued after receipt No. 778 of 3-12-1937.

(c) Imprest recoupment:- On 30-10-1937 a sum of Rs. 111-15-0 was recouped towards imprest. Evidently the excess of Rs. 11-15-0 over the imprest of Rs. 100/- was utilised out of other funds on hand. On checking the imprest abstract in respect of this recoupment, it was found that purchase of vegetables during October amounting to Rs. 13-9-9 was not recouped at all. This excess expenditure was incurred out of the unspent balances of exhibition advance and advance for purchase of vessels for cookery.

on 6-10-37 a sum of Rs. 100/- was drawn for exhibition expenses and out of this amount lumpsum advances were given to the temporary clerk in charge of exhibitiom work who has rendered account after the close of the exhibition, an abstract of which is incorporated in the cash book of the Trust as on 31-10-1937. The total of the expenses connected with the exhibition paid out of the above sum of Rs. 100/- came to Rs. 89-4-9 leaving an unspent balance of Rs. 10-11-3. But on 24-12-1937 only a sum of Rs. 7-1-6 was remitted to Bank as unspent balance of exhibition funds.

On 12-10-1937 a sum of Rs. 50/- was drawn for purchase of vessels for cookery and out of this a sum of Rs. 40/- was advanced to the lady doctor of the Trust for effecting the necessary purchases. This advance as well as the advance of Rs. 5/- paid out of imprest to the nursery school teacher for preparing exhibits for

the exhibition remained unadjusted on 31-12-1937, as accounts had not been rendered by the concerned parties. As already pointed out the unremitted balance of exhibition funds amounting to Rs. 3-9-9 and Rs. 10/- out of the amount drawn for purchase of vessels for cookery was utilised for the purchase of vegetables in the month of October.

II. Vouchers. (a) As usual, for purchases of fruits and eggs and for purchase of vegetables in the market no vouchers are available and slips signed by the purchaser are placed.

(b) On checking the bills of Dallali Basavappa & Sons for supply of provisions etc., it is found that the supplier has charged different rates for one and the same article. I am giving below details of such items.

Indent No.	Date of bill.	Name of article.	Amount charged.
178	7-5-1937	Monkey Brand Soap one cake.	0 2 6
177	6-5-1937	do.	0 4 6
194	7-6-1937	do.	0 4 0
190	do.	do.	0 4 0
200	7-7-1937	do.	0 4 0
205	8-7-1937	do.	0 4 0
212	4-8-1937	do.	0 4 0
236	3-10-1937	do.	0 4 0
241	10-10-1937	do. one packet	0 8 0

In the bills in respect of indents 190 and 194 the clerk has reduced the price from 0-4-0 to 0-2-6. The clerk was asked to make enquiries in other shops regarding the value of this article and it is found that each cake costs only 0-2-0 as a packet of two cakes costs only 0-4-0. Hence there is clear proof that the supplier has been continuously overcharging for this item.

Indent No. 217 of Subramanyam Centre includes 4 seers of Cocoanut oil. The supplier has claimed in his bill dated 1-9-37 a sum of 0-9-8 for 4 seers of oil indented, though the nurse has remarked on the bill that she has received only 3 seers of oil. Inspite of the nurse's remark the supplier has been paid in full for 4 seers. The above excess claims and similar amounts in the bills of the succeeding months may be recovered while passing

2 Draft

G. R. S. App. F VI—G 2]

SUBJECT ... ...

the bills for the current month. Further it is advisable to call for estimates and change the supplier without delay in view of the above irregularities.

The bills in respect of supply of provisions for cookery are not signed by the nurses who receive the supplies and as such there is nothing to show that the articles indented have been duly supplied

(c) Excess claims are also noticed in the bills of N.C.Kodanda rama Setty & Co., for supply of stationery. I am giving below the rates charged by him for thin typewriting paper of two sizes in the bills of the different months.

Voucher No. and date.	Name of article. and quantity.	Amount charged.
39/10-3-37.	½ ream typewriting thin paper	0 10 0
20/7-4-37	do. Foolscap size	0 10 0
	do. Bond size	1 0 0
55/31-7-37	do.	0 10 0
26/7-8-37	do. do.	1 0 0
	do. Foolscap size	0 10 0
78/27-9-37	do.	1 0 0
115/30-11-37	do.	1 0 0
120/31-10-37	do.	1 0 0

The price of this article was ascertained from other shops and it is found that the cost per ream (either size) is only Rs. 1-2-0 i.e. cost of half a ream is only 0-9-0. But the supplier has throughout charged at the higher rate. The excess claims in these bills may also be deducted out of current month's bills,

To avoid such excess claims, estimates should be got for all kinds of supplies and orders will have to be placed to reliable suppliers.

(d) Milk Bills:-/A few items of excess payments amounting in all to Rs. 1-5-0 were noticed in the milk bills for the half-year and these have been recovered during the current period.

ii. Milk for outdoor babies. In the meeting held on 26-4-37, as an experimental measure it was decided to give milk to outdoor babies attending clinics and Rs. 25/- per month was sanctioned for a period of 6 months. But the supply of milk to outdoor babies in

in july comes to 177½ seers costing Rs. 32-4-0 resulting in an excess expenditure of Rs. 7-4-0 for the month. Similarly there is an excess expenditure of 0-9-0 in September 1937. In October 1937 the Committee approved the Hon. Secretary's recommendation to increase the expendi-ture to 1-8-0 per week for each centre which works up to Rs. 36/- per month. The excess of expenditure in July and September may be got ratified by the Committee.

iii. In the Sri Vanivilas Centre during the last week of October and first week of November 1937 the nurse has taken 30½ seers of milk per day i.e. nearly double the usual quantity of milk. The nurse has remarked in the milk bill that she increased the milk according to the diet list. But there seems to be no sanction for this increased expenditure

iv. Irregular supply of milk. In the milk bills of Subramanyam centre, it is found that the quantity of milk supplied in the morning and evening on some days varied from the usual quantity, though the total supply for each day remained at the same figure. I give below details of such variation.

	Date of supply.	Morning supplies.	Evening supplies.
Usual quantity from 12th to 27th July.		6 seers.	4¾ seers.
	on 16-7-37	5½	5¼
	26-7-37	7	3¾
In August	on 13-8-37	7½	3¼
	14-8-37	6	4¾
	15-8-37	5½	5

If the required quantity of milk is not supplied in the morning, does it mean that an increased supply in the evening can be well utilised though it is in excess of the usual quantity of milk prescribed by the doctors?

v. Delay in claiming payment. Voucher 46 of 28-7-37 is the milk bill of Gajasala Centre for June 37. This bill includes cost of supply of 15 seers of milk on 8÷2-37 during the Baby Week. Similarly in voucher 32 of 21-8-37 (bill of Devaraj Centre for July) another supply of 16 seers during the Baby Week is included. Claims for such supplies may be arranged to be made without undue delay as otherwise

it may be difficult to judge the genuineness of the claim.

(e) Charcoal Supply. The charcoal bags are supplied to all the centres by one and the same person and the payments are being made out of imprest on individual bills produced by the supplier now and then. Some bills do not bear the actual date of supply and there are instances of payments on consecutive days for supplies to one and the same centre. In the absence of indents it is difficult to vouch the correctness of these vouchers. As in the case of other supplies charcoal bags may also be supplied on indents to be issued by the Honarary Secretary and a consolidated bill may be produced by the supplier at the end of the month anda cheque payment for the total supply during the month may be made after due scrutiny of the bill with reference to indents.

(f) Vr. 24 of 11-9-37-Lighting bill Rs. 19-13-0. This amount includes disconnection and reconnection charges of Re 1/-. If the bills had been paid promptly, this could have been avoided.

(g) Exhibition expenses:- i. Conveyance. Every nurse and nursery school teacher attending the exhibition on duty has been paid a conveyance allowance of 0-4-0 for each trip to the exhibition or from exhibition to residence.

ii. Refreshments. 39-0-9. This includes the bill of Mr. B.T. Ramiah for Rs. 31-12-9 for supply of tiffin to Doctors, nurses, teachers etc., on duty at the exhibitiom. On a perusal of the list showing details of supply it is found that there is no uniformity in the value of supplies to different individuals. The balance of Rs. 7-4-0 represents the payments to peons for meals and tiffin for working overtime. The total expenditure under this head is almost double the expenditure in the previous year which is only Rs. 20/-.

iii. For petty purchases of vegetables, milk etc., for the exhibition, slips signed by Dr. Ramanna are placed as vouchers.

(h) Bank transactions. A few instances of differences in dates in the bank transactions are noticed.

e.g. On 6-11-37 a sum of Rs. 1-15-0 was remitted to Bank

as per cash book. But the actual remittance as per pass book is only on the 8th. Voucher 22 of 10-7-37 is for payment of Nursery School rent Rs. 15/-. Though the payment isshown on the 10th the cheque has been cashed as per pass book on the 9th itself.

III. Interest on Fixed Deposits. Out of the surplus cash on hand a sum of Rs. 10,000/- was invested in Fixed Deposit at the Bank of Mysore in the month of May 1937. As the major portion of the surplus at the time consisted of the Gunamba Trust and Vanivilas Centre floating surplusses, this fixed deposit is presumed to represent Rs. 6000/- of the Gunamba Trust balance and Rs. 4000/-of the Vanivilas Centre balance, and the interest on this deposit has been divided in this proportion.

The interest on current deposit has been divided in the proportion of the floating surplus.

IV. Grants-Specific-(a) I.R.C.S. State Branch-Lady Doctor's conveyance allowance. Rs. 113-14-3. The receipt and disbursement of a sum of Rs. 9-6-0 received from State Branch for 5 visits of the lady doctor to French Rocks and Seringapatam in September 1937 is not brought to account in the books of the Trust and hence is not included either in the above figure of Rs. 113-14-3 or under establishment on the payments side.

(b) Govt. Grant for Nursery Schools. 50/-. This amount represents the grant for July 1937. The grant for the remaining five months is not yet drawn.

V. Nurses Relief Fund: Fees on labour cases. Out of the labour cases conducted by the nurses of the Trust during the year, bills were sent for 16 cases of which the amount due on only 7 cases was received during the year. Out of the fees due on the remaining 9 cases which amounts to Rs. 36-8-0, a sum of Rs. 6-8-0 is received during the current year. In addition to these outstanding bills, a number of bills relating to the year 1936 are still unpaid. Reminders may be sent to all

the defaulters and recoveries effected as far as possible.

As pointed out in the report for the half-year, the amount at the credit of this fund has not been deposited in a seperate banking account as required by clause 4 of the rules governing the Fund. The amount at credit of the fund at the beginning of the year was Rs. 88-8-0. A sum of Rs. 39-12-0 has been received during the year as fees on labour cases and with this increase the fund stands on 31-12-1937 at Rs. 128-4-0.

During the year a sum of Rs. 100/- was advanced to two nurses of which a sum of Rs. 85/- was recovered during the year in monthly instalments of Rs. 5/- each. But the issue of these loans is not in accordance with clauses 10 and 11 of the rules governing this fund according to which loans to the extent of only 75 % of the proportion of the collections credited to each nurse as provided by rule 6 can be given as loan. The fees on labour cases received has not been apportioned as provided by rule 6 and the books to be maintained as per rule 17 have also not been opened. The funds may be deposited in a seperate banking account without further delay and the necessary books may be opened.

VI. Miscellaneous receipts. Rs. 114-5-4. At the time of the Dasara Exhibition biscuits were got prepared out of ragi, jolam and wheat and were sold at the exhibition stall. A sum of Rs. 49-1-0 has been realised on sale of biscuits and this sum is included in the above figure of miscellaneous receipts. The total expenditure on biscuits came to Rs. 122-12-0 resulting in a net expenditure of Rs. 73-11-0. The unsold biscuits were distributed to the children attending the centres.

VII. Food for babies. The supply of food to babies was begun in October 1937. During the major part of October 37 vegetables required for giving food to babies were being purchased in the market at an average cost of Rs. 1-8-0 per day. There has been considerable reduction in thás item of expenditure after the pruchase from Sewage

farm began. For some time in addition to the vegetables purchased from the Sewage Farm, some items such as potatoes, eggs and tomatoes were being purchased from the market at an average cost of 0-9-0. From 15th November the market purchase is reduced to 0-2-6 or 0-2-3. The Sewage farm supplies per day cost on an average 0-6-6. The cost of provisions got for this purpose costs about Rs. 15/- a month.

VIII. Baby Week expenses:- i. Printing. It was found that the rates charged by the printer for printing Baby Week notices etc.,were rather high and considerable reduction was effected in the amount of the bill. In order to avoid excess claims of this kind, estimates may be got before hand for all kinds of supplies amd services.

ii. Photos and Photo requisites. It will be seen from the statement of account that a sum of Rs. 19-8-0 has been paid underthis head. But the bill in respect of 8 Albums and 88 photos indented in I.No.135 of 3-3-1937 has not been paid. I am informed that a sum of about Rs. 40/- may have to be paid. Though it is nearly a year, this item is still pending payment.

IX. Stock Articles-Linen:- On 25-1-1937, 204 baby towels were pruchased of which only 184 were issued to various centres. The balance of 20 being extra stock is said to be retained in the office. But, again on 24-8-37, 150 towels were bought and distributed to the centres at 25 to each centre. Atleast when the next indent is put up the extra quantity on hand of 20 towels may be utilised and the balance required may be purchased.

X. Capital Expenditure: Buildings. Rs. 7,543/-. This includes a sum of Rs. 5000/- paid to the Public Works Department as advance for the construction of Sri Gnanamma Centre and a sum of Rs. 144/- being the cost of foundation stones and trowels purchased for the two new centres. The balance represents the cost of Nurses quarters at Vanivilas, Subramanyam and Mallamma centres.

Water tanks at Vanivilas and Subramanyam Centres:- Though the water tank at Vanivilas centre was completed in 1936 and that

at Subramanyam Centre during the period under review, no claim has come for the payment of the bills and even the exact amount due for the construction of these water tanks is not known.

XI. Budget:-Expenditure in relation to budget estimates- In the following items of expenditure, the actuals have exceeded the budget estimates for the year to the extent noted below.

Contingencies-Miscellaneous	191	0	6
Conveyance	81	8	0
Printing and stationery	19	6	9

Of these the increase under miscellaneous expenses is represented by the following additional expenses during the year.

Expenses connected with the laying of the foundation stones of Gnanamma and Meenambal centres.	76	11	0
Cost of biscuits manufactured	122	12	0
	199	7	0

It will be seen from the classified statement of expenditure that the total amount spent on Anti-Tuberculosis Work is Rs. 1368-2-6 as against a total receipt of Rs. 1,046-7-6. The deficit is due to the nonreceipt of any grant from I.R.C.S. State Branch. (Rs. 500/- was received in 1936 from State Branch for anti-tuberculosis work.)

XII. Nursery Schools./An abstract of the receipts and payments of the Nanjaraja Bahadur Chatram and Kantaraj Urs Chowk Nursery Schools for the year has been incorporated in the cash book of the Trust as on 31-12-1937.

The total expenditure for the year on account of the three nursery schools amounts to Rs. 1,796-9-1 as against receipts amounting to Rs. 862-7-6, resulting in a net expenditure of Rs. 934-1-7 out of the Trust Funds.

XIII. Surplus. I give below an abstract of the surplus of each centre as on 31-12-1937.

P.T.O.

Particulars.	Gunamba Trust. Rs. a. p.	V.V.Centre. Rs. a. p.	Subramanyam & Mallamma centres. Rs. a. p.	Red Cross. Rs. p.p.
Closing balance of cash on hand & at Bank on 31-12-1937.	7686 2 3.	8307 6 11.	460 6 8.	1432 7 3
Add Income accrued and received after 31-12-1937.	368 8 3.	203 6 9.	411 8 0.	17 2 0
	8054 10 6	8510 13 8	871 14 8	1449 9 3
Less expenses outstanding on 31-12-1937.	841 4 7	960 6 1	710 3 11	188 2 7
NET SURPLUS	7213 5 11	7550 7 7	161 10 9	1261 6 8

XIV. Stock Book. The stock articles in each of the centres according to the inventories prepared in the latter part of 1936 have been copied in the stock book and the values put in by the clerk in the inventories have been taken to stock book. The purchases during 1937 have been duly posted in the stock book and after checking the stock articles at the end of the year, various unserviceable articles have been written off by the Honarary Secretary.

XV. Assets and Liabilities Statement:- The buildings owned by the Trust have to be valued in addition to the valuation of stock articles and it is only then that the statement of assets and liabilities can be prepared

R Ramachandra Iyer
